

INTERVIEW WITH MS.HIRSCHMAN

5th grade EAL

How it went for me.

At first I was excited and scared too but at the end of the interview I was so happy because I didn't miss any questions.

Before becoming the head of the Lower school, did you have a different job at Dwight?

No, I came to Dwight for this job. This is my fourth year.

What is the hardest part about a leader at Dwight?

Time management, classroom visit and phone calls. It's hard to keep balance with all these things and still have time for lunch.

What part do you like most about you're job?

I love Timothy House students. I'm always excited to see all of you. You're the reason that I wake up in the morning.

What is a leader to you?

A leader is a person that allows people to have ideas and a good listener. A leader can sometimes be in the front and sometimes be on the back.

" A leader is someone who leads people and do good things like: stop the war, help people... And he or she care about other people's ideas."

-Solal
